VOL. VI, NO. 144. FRESNO, CALIFORNIA, TUESDAY, MARCH 21, 1893. PRICE—5 CENTS.

LOST A COOL MILLION

That is What the S. P. Did Last Year,

ACCORDING TO THEIR STATEMENT

The Competing Line of Clipper Ships Said to Have Been the Cause of the Losses.

SAN FRANCISCO, March 20.—A statement is made by the Examiner that the annual report of the Southern Pacific for 1892, to be submitted at the annual meeting on April 6th will show a loss of about $1,000,000 in net earnings, as compared with the previous year.

The loss, however, will not quite wipe out the surplus, though the earnings are materially decreased.

The report will make a better showing than for the years preceding 1891.

The causes for the decline in the net earnings have not been set forth in details. It is thought, however, that one reason is the loss of business experienced by the competition of the Grace clippers for seven months last year.

These vessels not only forced reduction in clipper rates between New York and this port, but caused the railroads to reduce their rates on transcontinental traffic on east bound business.

They brought down rates fully 50 per cent last summer, while on west bound from New York they made a large cut on a number of commodities the clippers were competing for.

At the annual meeting Senator Stanford is to be re-elected chairman of the executive committee, which will be made up of Messrs. Stanford, Huntington, Crocker and Hubbard. No important changes will be made in the directors.

The Boys in Blue.

LOS ANGELES, March 20.—The State Encampment of the G.A.R. opened here today in a pouring rain storm. An executive session of the delegates was held at 2 o'clock. Among the persons most prominently mentioned for department commander are State Senator E. C. Seymour of San Bernardino and Dr. J. C. Stout of San Jose. For senior vice commander, Fred Banta of Fresno, W. W. Stone of San Francisco, H. T. Smith of Oakland, Magnus Late of Los Gatos, are mentioned. Department Commander Fuller called the department to order this afternoon. Little was done beyond announcing a program of entertainment for visitors, which includes receptions, a parade, capture and several excursions.

Mackay in a Bad Way.

SAN FRANCISCO, March 20.—John W. Mackay, recently shot by C. W. Rippey, is again reported in a serious condition, but the ailment is not directly connected with the wound. His condition was considered sufficiently grave today to warrant a consultation of physicians who decided that an operation would probably be necessary. Mr. Mackay seemed better this afternoon, however, and the operation was for the present postponed. His physicians are very reticent, but it is known that much uneasiness is felt about Mr. Mackay's condition. His trouble is said to be inflammation of the bowels.

The Lilly in Luck.

NEW YORK, March 20.—A special from Nice affirms that Mrs. Langtry heard the news of the death of Abingdon Baird during a Mediterranean cruise and immediately hastened to Nice where she arrived this morning and started for England. It is said that Baird has left her $200,000 a year with the whole of his racing stead and his magnificent establishment at Newmarket.

PARTY TITLES.

City Attorney Graham's Opinion on an Important Matter.

City Attorney Graham has decided that the party or political designation of candidates nominated on petition of electors may be printed after the names of candidates on the ballots. The following is his written opinion, advising the city clerk as to his duty in the premises:

W. B. DENNETT, ESQ., City Clerk—My Dear Sir: In reply to your inquiry as to whether electors of a political party equal in number, to 5 per cent of the whole vote of any city, district, etc., who join in certifying the name of a candidate for office in the manner prescribed in section 1188, political code, can lawfully demand that the name of their party shall be printed on the official ballot, opposite the name of such candidate, has received my careful consideration.

It is not without considerable difficulty and much doubt that I have reached the conclusion that electors certifying such nomination are entitled to have such party name printed on the official ballot.

In reaching this conclusion I have been influenced largely by precedents established by the proper officers in all the counties in this state, in reference to candidates voted for at the elections last November, which precedents, I think I may assume, were made upon the advice of capable and learned members of the legal profession.

I also feel inclined to give to electors the benefit of any doubt I may have upon this question, thus giving to them the broadest right and privilege that can be claimed under the law. Very respectfully, GEO. B. GRAHAM,
City Attorney of City of Fresno.

A LOST BROTHER.

Crittenden Thornton Will Seek Him in Arizona.

Crittenden Thornton, the well known San Francisco lawyer, left Fresno last night for Arizona to look for his brother, Harry I. Thornton, who has not been heard from by his family for over five months.

Young Thornton left San Francisco ten months ago for Arizona, where he owned some cattle. It was his intention to round up his herd somewhere near the San Pedro river, sell out and then return to California.

Several letters were received from him, but about five months ago the correspondence on his part ceased. For a time it was supposed he was cut off from mail and telegraphic communication in looking after his cattle, but as the interval of silence became longer his relatives became seriously alarmed and his brother, Crittenden Thornton, decided to go to Arizona and look for Harry.

The last heard of Harry Thornton is that he had left a certain ranch for another about eighteen hours travel distant. He had considerable money with him and it is feared by some he has met with foul play. His brother, however, hopes to find him alive and well.

AMUSEMENTS.

Three Good Companies Billed for the Coming Week.

That laughable and enjoyable comedy success, "A Night on the Bristol," will be produced at the Barton on Wednesday night, and the original "Widow O'Brien," John F. Sheridan, will be seen in his famous character impersonation and eccentric role. The play has been redecorated and rejuvenated with new, bright musical gems, and Mr. Sheridan is supported by an exceedingly large and capable company of comedians, seldom gathered together in any one company.

Incidental to the play are novelties and specialties in singing and dancing and other features are presented by this talented company which tend to amuse the audience. In fact a dull moment is not observed, and laughter reigns supreme during the entire evening.

PRIMROSE & WEST'S MINSTRELS.

Primrose & West coming. Primrose & West, with their brilliant company of minstrel merry-makers, are announced for Sunday, March 26th, at the Barton opera house. This will be the one minstrel event of the season. Primrose & West are the acknowledged leaders in this style of entertainment. They have spared no expense in keeping this most genuine form of American amusement in the very front rank of popular entertainment. This year is the epitome of their career. Their entertainment is new from overture till the curtain falls.

WARDE-JAMES.

The interest attached to the joint appearance of the distinguished tragedians, Frederick Warde and Louis James, makes itself manifest everywhere in America. Now that Edwin Booth has retired and Mr. Barrett has passed away, these two brilliant actors have substantially taken their place, equipped with the magnificent paraphernalia formerly used by Booth and Barrett, and supported by one of the largest and best balanced companies ever formed for legitimate plays. The Warde-James organization may justly be termed the foremost company of America.

Their forthcoming engagement at Barton's opera house, which occurs Friday, March 24th, will be made memorable by a magnificent production of Baker's romantic tragedy, "Francesca da Rimini," wherein Mr. Warde will be seen as "Lanciotto" and Mr. James as "Pepe." The entire strength of the company will be required for the proper illustration of the many characters in this beautiful play.

J. R. Hern and W. S. James were arrested Sunday morning by Deputy Constables Angel and Wetty, on a charge of burglary. Early Sunday morning W. P. Symmes of Hazelton addition discovered that some one had stolen five or six bales of hay from his barn. The hay was taken away in wagons, whose tracks he followed. They led to the barn of W. S. James. Only a portion of the hay was found there, and a search warrant was issued, and Dilwood's place, two miles from James', was visited, without finding the missing bales, however. Hern lives with James. James is the man who was arrested, not very long ago, for stealing several harnesses. He was tried and acquitted.

AN INSURANCE SUIT

Being Tried Before Judge Harris

OTHER SUPERIOR COURT NOTES

A Church Petitions to Mortgage its Property—Several New Suits.

Several suits were filed in the superior court yesterday. Draper Fowler, the architect, by his attorney, A. M. Drew, brought action to foreclose lien against S. Samelson et al. Fowler alleges he provided Samelson with the plans and specifications for a dwelling which the latter built on his land. The architect was to have received $35 for this service, but Samelson has failed to pay him. He asks for judgment for this amount and $75 attorney's fee.

P. M. Wren did not want to leave California without a cent, and this laudable purpose got him into trouble. James Shea and Antoine Bocquerez, comprising the firm of Shea, Bocquerez & Co., have brought suit against Wren to recover $1365, alleged to be due them for merchandise sold and delivered to Wren. Wren was at the time a partner in the firm of P. M. Wren & Co. On March 1st the partnership was dissolved and Wren assumed the debts of the concern. Afterwards he sold the store, contents, etc., for $2500, receiving $1500 in cash and a note for $1000. The note he immediately discounted.

The plaintiffs say they have demanded payment of Wren, but that he refused, stating he did not wish to leave the state broke, which seems considerate, if he referred to the state's exchequer. It is Wren's intention, assert the plaintiffs, to leave the state without settling with his creditors, and they ask for judgment for the sum mentioned, and also an order for Wren's arrest. L. L. Cory is attorney for the plaintiffs.

The Christian church of Selma is young, but it feels quite competent to bear the burden of a mortgage. The trustees, by their attorney, R. P. Davidson, filed a petition in the superior court yesterday, asking that they be permitted to mortgage lots 10 and 11, block F, of Whitson's addition to Selma, for $500. They allege that they incurred a debt of $520 in erecting a building in which to hold their services, and that the sum they wish to raise by mortgage is intended to be used in paying this indebtedness.

The trial of the case of Mrs. Rebecca A. Rawlins against the Home Benefit Assurance Company came up for trial before Judge Harris yesterday morning. The company had issued a life insurance policy of $5000 to the late husband of the plaintiff, payable to her upon his death. Rawlins died suddenly in this city some time ago, but the company has refused to pay the policy upon the demand of the widow.

The matter hinges upon whether or not Rawlins used intoxicants to excess. The company's policy contains a clause that if the person on whose life it is issued uses liquor to excess the policy shall be forfeit. The plaintiff yesterday introduced the policy as evidence and then rested. The defense then proceeded to introduce testimony bearing on the habits of the deceased. Of course the plaintiff will put on witnesses in rebuttal.

The following jury is trying the case: S. J. Perkins, Fred Noble, L. Hansen, C. A. Parlier, F. N. Newell, M. Snyder, J. P. Neil, John Hansen, Thomas Hart, W. B. Parker, H. Hausberger and W. D. Hill. J. H. Daly, S. Jackson and T. C. VanNess are the plaintiff's attorneys, and L. L. Cory and Warren Gregory represent the defendant.

The following matters were also disposed of by Judge Harris yesterday morning:

Southern Pacific Railroad Company vs. C. O. James; demurrer overruled and ten days to answer.

Laura J. Hildreth, administratrix, vs. J. G. James et al.; demurrer to amended complaint sustained and ten days given to plaintiff to amend.

Crocker-Woolworth National bank vs. Ella G. Barton; demurrer overruled and ten days to answer.

German Savings and Loan Society vs. J. W. Ferguson et al.; demurrer of defendants submitted and ten days given each to answer.

W. E. Qualls vs. L. L. Bettys et al.; demurrer of L. L. Bettys and W. H. H. Hart overruled and ten days to answer.

W. H. Heiskell et al. vs. Antone Joseph; trial of cause continued till March 22d, 9.30 a.m.

Emigrant Ditch Company vs. A. A. Webber; trial continued till March 22d, 9.30 a.m.

It was ordered that all motions and contested matters be continued till next Monday morning, March 27th.

J. H. Hultman, one of the most renowned Scandinavian musicians and singers that ever visited America, will early in April visit his old friend, Rev. Osborn, when an opportunity will be given to all the Scandinavians in the county to hear him free of charge.

IT IS a two to one bet that Sam Zeiz cannot control the whole of the Sclavonian vote of the Fourth Ward.

CHICAGO people now want to keep the World's Fair open a whole year. The pork center not only wants the rest of the world to leave all its ready money there, but also to soak its watch and wearing apparel in order to get out of the town.

SACRAMENTO is already talking of new enterprises which, if carried out, will be of more benefit to the town than the state capital. Sacramento needed an earthquake to shake loose its silurian dependence on the state, and the Bee succeeded in creating a first-class one.

THE question is no longer whether we are going to get enough rain, but whether we are likely to get more than we need in connection with the melting snow in the mountains. Creeks and canals are now running full and a continuation of the downpour is likely to result in overflows.

SOUTHERN CALIFORNIA oranges have been sold in the Liverpool market for $3.50 a box. The cost of transportation is heavy, of course, but it is said that a fair margin is left for the producer. With the completion of the Nicaragua canal California fruit can be landed as cheap or cheaper in England than it now is in New York.

IF the Stockton Mail don't get a fat office of some sort it will be because Grover has no more gratitude than a smoked herring. In its Saturday issue it printed a half-column of original poetry on "Cleveland's Birthday." Nothing less than the Hawaiian mission is fit for the man who can grind out a poem on that subject.

IF THE people vote to move the state capital to San Jose it will not be on account of what the Bee said about the legislature, but because they believe Sacramento is not a suitable place for it. The people up there who are boycotting the Bee should take notice, therefore, that they are barking on the wrong trail. They should boycott the town—and themselves.

THE Grand Army of the Republic has furnished funds to equip a ward in the Confederate Soldiers' Home at Richmond, as a return for courtesies extended to members of the Grand Army on a recent visit to that place. The people who stayed at home and fought with their jaws make up the majority of those who still persist in raking up the old animosities.

A SAN DIEGO paper has started a state division boom by calling for a general formation of clubs in all the territory south of the north line of Kern county, for the purpose of getting people familiar with the idea, which leads the Tulare Register to observe that, "If we can get the state divided often enough, and the various counties cut fine enough, there will be offices for everybody, save a few left out to produce the necessaries of life, and even these might be provided for if the ungodly railroads would make rates low enough so we could afford to ship in provender for man and beast." If we can only get enough politics to support the entire population, what a perennial picnic life will be!

COMMENTING on the action of the World's Fair commission in dismissing D. T. Fowler as superintendent of the exhibit and the selection of G. A. Wilson to fill that position, the evening paper says:

Had a Republican been selected to take charge of the exhibit at Chicago there would have been no complaint, and Democrats would not have felt aggrieved. Because the man selected instead of Professor Fowler votes the Democratic ticket the charge is made that he was selected because he is a Democrat. We hardly see any valid excuse for not letting the petition which Mr. Gordon had been at such pains to get signed read, but the refusal to do that does not show partisanship or disprove the fitness of Mr. Wilson to manage the exhibit. If Mr. Wilson is incompetent, then he should not be sent. Unless he is shown to be incompetent, however, it is nonsense to say he should not go because he is a Democrat, or because Mr. Gordon and THE REPUBLICAN prefer Professor Fowler. As for the individuals the Expositor does not care a button, but when certain individuals attempt to dictate to the board and ask that a man shall be discriminated against because he votes the Democratic ticket the proceedings does not look very well. Let Mr. Wilson and Professor Fowler stand on their merits, regardless of their political affiliations.

The competency of neither Mr. Fowler nor Mr. Wilson has been questioned, so far as we are aware, and the Expositor understands full well that it is not the selection of Mr. Wilson, but the manner in which that action was brought about, to which the criticism of this paper has been directed. Had Mr. Wilson been selected in the first place it is improbable that objection would have been heard from any quarter. The fact, however, that Mr. Fowler was first selected by the commission, that the selection met with universal public approval and then that he was, without the assignment of a reason, dismissed by the votes of the Democratic members of the commission, lends color to the opinion that the commission was actuated by political prejudice in taking such action. Whether it was due to political or personal motives, it was unwarranted and indecent treatment of the member of the commission first selected. The assumption of the Expositor that THE REPUBLICAN has criticised for partisan reasons the juggling and arbitrary methods of the commission in dismissing Mr. Fowler without cause and refusing to hear a petition of citizens in his behalf, is contradicted by all the facts in the case. Mr. Fowler is not a Republican, but is a prominent member of the People's Party, and THE REPUBLICAN has not the slightest political interest in his cause. Its relations with Mr. Wilson are quite as cordial in every particular. It simply considers Mr. Fowler in the light of a citizen of good standing in the community, and as such contends that he was entitled to honorable and decent treatment. The refusal of the commission to hear a petition of business men and taxpayers was simply a lofty assumption of power that sits with poor grace upon any body entrusted with the expenditure of public funds. The fact that the petition which was refused a hearing was signed by such citizens as W. W. Phillips, Herman Levy, A. V. Lisenby, W. F. McVey Dr. J. L. Maupin and W. McCallum, is evidence enough in itself that it was not a Republican scheme to prevent the appointment of a Democrat. It was merely a request for straightforward, honorable action on the part of the commission.

IT is impossible to disregard the evidence that cholera threatens western Europe, and through western Europe the United States, at a much earlier date, and in much more serious form than last year. The disease is spreading rapidly in several provinces of Russia, and in Podolia alone it is stated that there have been more than 500 fatal cases during February, although untrustworthy official figures reported only 106. Therefore, the choleraic invasion of Europe is nearly six months in advance of its arrival in 1892, and this fact fortifies the current apprehension that the pestilence is likely to make its appearance in formidable form in the early months of summer. The sanitary officers of British ports have already held a council of war, with a view of meeting the threatened invasion, and it would be well for American authorities to be equally vigilant. In this connection it is pointed out that cholera has worked some of its worst ravages through a polluted water supply. Some time ago cholera broke out at Genoa, a city which has a fine supply of pure water from a high mountain source. It was thought that the theory of the transmission of the cholera by water had broken down, but on a closer examination a camp of cholera stricken refugees was found upon the high ground by the side of one of the channels through which water flowed into the pipes which supplied the city. Hamburg furnishes a still more recent proof. The sewage of Hamburg fouled its water supply, and the deaths were 30.8 per thousand; while at Altoona, a suburb of Hamburg, which draws its supply from farther up the Elbe, the deaths were only 3.9 per thousand, and in Wandsbeck, another suburb, drawing its water supply from springs, the deaths from cholera were only 2 per thousand of the population. It is evident, therefore, that the danger of the spread of pestilence is a question that involves something besides a strict quarantine. Fortunately for Fresno, in the event of the plague's visitation her water supply is such that contamination is almost impossible. Such is not the case, however, with most of the principal cities of the state, including San Francisco, Sacramento and other places which secure their water supply from running streams and surface drainage. In view of the threatening aspect of the plague in Europe it would be well that every possible source of contamination, especially water supplies, should be looked into and every reasonable precaution taken against infection. At the present time there is a lack of ordinary prudence in the matter of maintaining the purity of water supplied to a large proportion of the population of the state.

The Pacific Tree Protector

Protects Your Trees From Sunburn, Borers, Rabbits and Other Tree Pests.

IN WARM CLIMATES, or in sections inhabited by the rabbit, the difficulty is not in making the tree and vine grow, but after they have started the obstacles begin, by affections upon the corky tissues of the plant. The hot summer sun, penetrating its heat through the tissues of the bark, warms the sap to such a degree as to disturb its osmotic action from cell to cell, which leads to the destruction of them, and consequently the part of the trunk exposed to the greatest heat falls into a decay, and the grower who had hopes of priding himself upon the appearance of his trees, is confronted with a number of disfigured trees, destroying the beauty and symmetry of the surroundings. He has another foe to contend with, which is really more destructive in action, and that is the festive "Jack rabbit." His love is the bark of the young tree or vine. In this he is epicurean in his taste. The many young trees and vines destroyed by his craving stomach and sharp teeth would stock numerous large orchards and vineyards. The unsightly shake was a partial protection to the tree from the sun, but what the sun spared the rabbit got.

THE PACIFIC TREE PROTECTOR can be counted upon as a sure protection against these dangers. A distance between the trunk and protector serves to keep the former cool by allowing a circulation of air. These cost ranges—very slight—1 to 2 Cents a Tree.

THE MONTEREY ROAD.

Madera Has Made a Heavy Bid to Be Made a Station.

Colonel A. W. Jones of Kansas City, Missouri, left Fresno for the east yesterday morning in order to attend to the issuance of the bonds for the construction of the Monterey & Fresno railroad. Under the law the bonds cannot be delivered until June, but the Colonel will endeavor to secure some money in advance of them in order that he may prepare for the work of building the road, which work will be begun in June, and will be prosecuted to completion without unnecessary delay.
The Colonel intends to return about the first of May. He informed a REPUBLICAN reporter last Sunday that four large interests in the vicinity of Madera had made a heavy bid to have the road go to Madera before coming to Fresno. This route would make the road about eight or nine miles longer than if it came direct to Fresno.

Refutation of the Misrepresentation of Frank Z. Smith.

This is to certify that the Copyright of the Trade mark "Albany Dental Association" was obtained by me from the Secretary of State of the State of California, for Doctors Green and Pollock, and that the name F. Z. Smith is not, nor has it ever been included in said Trade mark.
Furthermore, the law requires a Trademark to be registered only at the office of the Secretary of State and not elsewhere.
The registration of F. Z. Smith in the County Clerk's office of Fresno, in connection with the name "Albany Dental Association," does not entitle him to the trade-mark, as there is no law requiring such registration.
Drs. Green and Pollock complied with the law with reference to Trade marks, and paid for the same and F. Z. Smith was not known in the matter.

EXTENSION OF TIME.

J. T. Shanklin was granted a two weeks extension of time to complete the grading of Fresno street.

LIQUOR LICENSES.

F. Kramer was granted permission to transfer his saloon license to L. D. Reed and C. H. Codlemann.

GRADING R STREET.

Bids were opened for the grading of R street, as follows: S. E. Johnson and W. Y. Johnson, $1459; P. Leblanc, $1085. Clerk Dennett announced that three other bids on the same work had been received after 4 o'clock, the time fixed in the advertisement for receiving bids.
Fahey moved that the remaining bids be received.
Alford thought it would be unwise to do so. He would rather reject all bids and re-advertise. If the late bids were not opened, on the other hand, it would give the late bidder an advantage, in case proposals were re-advertised for. He was willing that they should be opened if it could be done legally and consistently. He had seen bidders go into the clerk's office and watch the clock to see who were putting in bids, and afterwards go out and change their bids. It would be a bad precedent to establish.
Fahey withdrew his motion.
The president announced that the late bids had been presented by William Helm, Zeigler & Renfro and Walley & Anton.
Herrington moved that all the bids be opened and considered.
The following bids were then opened: Walley & Anton, $900; Zeigler & Renfro, $705; William Helm, $795. The contract was awarded to Zeigler & Renfro, Cole voting no.

BIDS FOR SEWER WORK.

Bids for sewering blocks 42, 43, 44 and 333 were opened as follows: Walley & Anton, $1450; Foin, Newhouse & Co., $1265.
The clerk announced that the accompanying check of Foin, Newhouse & Co. was not certified as required by law. On motion of Alford their bid was accepted, with the proviso that the check should be certified without delay. Cole voted no, because the bid had been received after 4 p.m., the appointed time.
On motion of Alford it was decided to readvertise for bids for grading F street from Fresno to Tuolumne.

SALARIES OF CITY OFFICERS.

Alford introduced an ordinance regulating the salaries of city officers for the ensuing two years, as follows: City marshal, $100 per month; recorder, $50 per month; assessor, $900. The ordinance was laid over for two weeks, under the rule. The only change in the reduction of the assessor's compensation.

THE FISKE RAILINGS.

W. D. Grady called attention to the openings leading to the basement of the Fiske block. He had three tenants who had fitted up a restaurant in the basement, but were denied the privilege of doing business there, because of the openings having been covered with planks. He suggested that the city give $500 towards placing glass in the openings, and that all legal proceedings in the matter be dismissed.
Fahey said that he had examined the basement and found that the new tenants had gone to considerable expense in fitting up the place. He believed that the city should defray a portion of the expense in placing glass coverings over the openings, and thus save the expense of a protracted lawsuit. He therefore moved that the city appropriate $500 for that purpose, on condition that the city should receive a clear release from all costs and damages.
Alford remarked that he believed that $500 would come very near doing the whole work. He suggested that bids be advertised for to put the glass coverings on, and he did not think that the whole work would cost more than that.
Church asked for the opinion of the city attorney.

THE CITY ATTORNEY'S OPINION.

City Attorney Graham said that the board had no right to spend more than $100 on any street or sidewalk. The city has absolute control of the streets and sidewalks. The city has no right to allow any obstructions upon the streets and sidewalks, but it has been done on streets where the sidewalks are not too much crowded. The supreme court has decided that where the city grants permission to obstruct a sidewalk, the property holder cannot be proceeded against for maintaining a nuisance until such permission shall have been revoked by the city.
In this case the city had withdrawn its permission, and upon the neglect or refusal of the owners of the property to abate the nuisance which existed in the shape of railings, the city removed them. There has been an injunction granted, and matters have remained in that condition until now. The city is in the right, and there is nothing in the lawsuit. The injunction can be dissolved, and it cannot remain in force pending an appeal.
The board could not give anybody $600 to do street work. That would be violating the law. Nor could the work be advertised for except under the provisions of the Vrooman act. The board could give Mrs. Marcean $100 towards these repairs, but it could not legally give any more.
If the work should be advertised, the property owners should pay for the work.
Fahey withdrew his motion and the matter was dropped.

A MOUNTED POLICEMAN.

Fahey called attention to the necessity of additional police protection on the edge of the city. Boys and others have been annoying residents close to the city line, and he thought that a mounted policeman should be provided.
He moved that Samuel Zeitz be appointed for that position. The motion prevailed, and on motion of Fahey the compensation of Mr. Zeitz was fixed at $75 per month, and $25 additional for furnishing and keeping his own horse.
Street Superintendent Jones was granted permission to grade the approaches to the alley back of the Fresno Milling Company's mill on Fresno street.

ALLEYS AND CROSSINGS.

Fahey called attention to the bad condition of the alley running from Mariposa to Fresno street, between I and J streets. The street superintendent was requested to abate the nuisance.
On motion of Church, it was decided to put a crosswalk on the east side of the crossing of Tuolumne and M streets.

THE HAY MARKET.

Street Superintendent Jones recommended that the selling of hay on Fresno and K streets be discontinued, as the street was being injured by the hay wagons and their teams.
On motion of Fahey, the city marshal was instructed to keep the hay wagons from standing on the public streets.
The board adjourned until next Monday at 2 p.m.

APRIL WEATHER.

Facts from the Record of the Past Five Years.

The weather bureau furnishes the following data compiled from the record of observations for the month of April, taken at the Fresno station for a period of five years:
Mean or normal temperature 61.5. The warmest April was that of 1888 with an average of 66.1; the coldest was that of 1892 with an average of 57.6; the highest temperature during any April was 98 on April 14, 1888, and the lowest was 35 on April 18, 1892. The average date on which the last killing frost occurred in spring was March 22d. The greatest monthly rainfall was 6.70 in 1892, and the least was 0.17 in 1890.

Odd Fellows' Celebration.

The committee having in charge the Odd Fellows celebration have decided to hold a picnic on Saturday, April 29th, which will be fully advertised later.

Bi-Chloride of Gold (?) Claims Another Victim.

The Topeka (Kan.) Republican is one of the fearless independent newspapers of the southwest, and therefore its opinions are of some weight. This is what it says about bogus gold cure imitators:
"Mr. J. P. Lee died at 2 o'clock this morning at the Eureka bi-chloride of gold institute, where he was undergoing treatment for the liquor habit. Mr. Lee was forty five years old, was killing clerk at the Santa Fe freight depot, and one of the most popular railroad men in Atchison. He leaves a wife and four children. An inquest is being held by the coroner."
Atchison Patriot.
The above notice chronicles about the eighth or tenth death occuring in the State of Kansas alone during the past few months at some of the numerous institutes pretending to imitate the Keeley Treatment for inebriety and the morphine habit. As a graduate of the real Keeley Treatment and most grateful for the great benefits received from Dr. Leslie E. Keeley's great remedy, "ye editor wishes to enter an earnest protest against the charlatans who are not only deceiving the public, but who are causing the death of irresponsible and unsuspecting men with their nostrums. Had these men been killed by physicians in private practice through malpractice or incompetency, what a howl there would have been.
There is surely much food for thought in the fact that while at the numerous imitation cures in the State of Kansas eight or ten men out of probably one hundred and fifty treated by the whole of these fakirs have died while undergoing treatment, the four genuine Keeley Institutes existing in this State, which are located at Topeka, Lewenworth, Kansas City, Kan., and Wichita, while treating nearly 3000 men during the past year, have never suffered the loss of a single case by death. The deaths in these imitation institutions have occurred at Witchita, Emporia, Arkansas City, Topeka, and other points in the State, and we often read of others at bogus institutions outside of the State. In some cases these deaths have been reported as while "taking the Keeley Cure," but when investigated it has invariably been found that they have occurred at one of these so-called "fake" institutes, the error in reporting these cases being the result of the careless manner in which the newspaper fraternity, as well as the public at large, have studied this inebriety subject, it having become common practice to call all institutions pretending to cure drunkeness, Keeley Cures. The great injustice in all this is this almost criminal ignorance of the public in not informing themselves of the difference between the true scientific treatment originated by Dr. Keeley, and the unscientific and dangerous experimenting of his would-be imitators.
Let all who are interested take warning and remember that the only Keeley Institutes in California are at Los Gatos and Riverside.

HEATH AND POLLEY

They Appeared for Arraignment Yesterday

AND GIVEN FURTHER TIME

S. J. Hinds Appointed by the Court to Appear for Polley—No New Developments.

There was a large crowd in Judge Holmes' court room yesterday morning to attend the arraignment of Richard S. Heath and F. W. Polley for murder.
Heath arrived first in charge of Under Sheriff Berry and they had some trouble elbowing their way through the dense crowd. Heath declined a chair and stood leaning against the railing, where he shook hands with and conversed with several friends. Polley held a few minutes whispered consultation with Deputy District Attorney Walser.
The attorneys in court representing Heath were W. W. Foote, H. C. McPike, E. D. Edwards, R. B. Terry, A. C. Williams and W. D. Grady.
The negro James Givens was also in court, but he was not brought in in connection with the murder case, his offense being embezzlement.
Deputy District Attorney Walser asked that S. J. Hinds be appointed by the court to defend Polley, who had no means to employ counsel. Polley made the same request, and the court made the appointment. Mr. Hinds not being present, S. N. Griffith was appointed pro tempore.
The indictments against Heath, Polley and John Doe were read. Mr. Foote, on behalf of Heath, asked for further time to plead, and he was given until April 1st, at 10 a. m. Mr. Griffith secured the same extension of time for Polley.
Mr. Foote called attention to a clerical error in the copy of the indictment, and Mr. Thornton suggested that Mr. Foote might examine the original indictment in order to satisfy himself that the error did not exist in the original.
"I don't ask you for any advice or suggestions," replied Mr. Foote. "I will attend to my own affairs without any help from you."
The prisoners were taken back to jail.
John Doe, the third man indicted, has not been yet arrested—at least the officials say that he has not.
There were no new developments in the case yesterday, so far as given out, the prosecution evidently preferring not to make public any more of the evidence secured by them.

STREET DRAINAGE.

A Suggestion That Flood Waters Should be Cared For.

EDITOR REPUBLICAN.—The unusual rains of the past few days remind the old residents of Fresno that another flood may be possible at any moment; but few realize the damage to Fresno of an overflow now. Formerly the low ground between Front street and the railroad depot constituted a natural channel, broad and deep, for the surplus water, but this has been filled in, and no adequate provision made for drainage.
When the city grades were established and provision made for sewers and for surface drainage, Inyo street was designated as the outlet for all of the country south of Mariposa street, with a culvert under the railroad large enough to carry all surface water. Afterward the railroad company commenced to move their freight depot to the crossing of Inyo street, and filled in the street several feet but made no provision for a culvert.
A number of property owners notified the city trustees of what was being done at the time, but the trustees, instead of carrying out the plans, put a small earthen pipe under the track on Kern street, leaving this as the only outlet for the entire upper part of the city, and available only after Inyo street is flooded.
There has never been a reasonable excuse for the action of the city trustees, and if properly should be damaged by the backing of water in consequence, owners would have recourse against the city for damages.
It occurs to me that it would be good policy to have proper culverts put in now, and provision made for drainage before damage has been done.

SUNDAY OBSERVANCE

Mr. Potter's Lecture Before the Unity Society.

FOR RECREATION, NOT GLOOM

The Scriptural Command Referred to Saturday and Not to Sunday. Interesting Points.

The weather last Sunday night was very unpropitious for church goers, the street crossings being flooded and muddy, but nevertheless there was a good attendance at the Adventists' church to hear the Rev. Potter's lecture before the Unity Society, on "Sunday Observances with Modern Applications."

THE BIBLICAL ARGUMENT.

The biblical argument was first thoroughly traversed. It was shown that the only Scriptural command for Sabbath observance referred to the seventh day of the week and not to Sunday, the first day, and that nowhere in the Bible is there any authoritative transference of the Jewish Sabbath to Sunday. On the contrary, both Jesus and Paul abrogated the traditional authority and usage with regard to the Sabbath to the Hebrews, but instituted the observance of another day in its place. It was only gradually that Sunday came to be used for religious assemblings in the early Christian churches, and it was not among them a day for austere practice and gloom, but a day of peculiar delight and cheer. Not until the sixth century was ordinary labor forbidden on that day.

The lecturer then showed the opinions of the leaders of the Protestant reformation, quoting from Luther, Calvin and Melancthon to prove that they took clear and strong ground against any attempts to transfer the Old Testament commands and the Hebrew usage concerning the Mosaic Sabbath of the Christian Sunday. Not until the time of the Puritans and their iconoclastic methods against Sunday abuses and wickedness, was Sunday invested in the Christian church with the attributes and austerities of the Jewish Sabbath. What is called, therefore, the American (or New England) idea of Sunday as opposed to the European, instead of having the authority of the Bible and of the Christian church behind it, is provincial and not yet 300 years old.

THE USES OF SUNDAY.

The people did not believe, however, that Sunday as an institution is to pass away or ought to be abolished. It is an inestimable advantage to have this seventh part of time rescued from the inordinate material demands which control for the most part the other six days, to be turned to different uses.

It is needed, if for no other reason, for rest to tired bodies and for recreation to strained and fagged nerves, and in modes of recreation innocent amusements may have their place. Rest does not always need idleness. The best kind of rest from the toil and tire of body and mind often comes from a change of activities. Sunday offers this change, and America, of all countries, with its strain on brain and muscle, needs it. But this kind of recreation is not all that Sunday offers.

It gives an opportunity, and to those who may have no other chance for it, for that mental, moral, spiritual culture which the hard necessities of other days may crowd out.

The speaker then proceeded to indicate certain things which might be introduced into the usages of the day conducive to this larger culture, besides the specific religious services which people would voluntarily continue according to their beliefs. Call it specially the religious day, if you please, but let it be for religion in a large sense; religion as meaning everything helpful to the higher and unselfish life of man. Let it be remembered, as Jesus said, "that the Sabbath is made for man, and not man for the Sabbath." On the basis of reason and humanity, vastly greater benefit might be made to accrue from this saved seventh of time than is now gained from it, whether by people inside of churches or outside of them. Too often the day is now largely wasted by both of these classes.

THE WORLD'S FAIR.

In this connection, Mr. Potter spoke of the educating and refining influence of access on Sunday to the public libraries, reading rooms, art galleries, museums of natural history, parks and botanical gardens, good musical concerts and industrial exhibitions—especially when the exhibitions are an epitome of the civilization and progress of the world, as the World's Fair at Chicago is to be.

Of the latter, he said that it is to be an educating and humanizing opportunity so exceptional that the opening of it on Sunday should not be regarded merely as morally allowable, but as morally obligatory. The argument offered by opponents of Sunday opening that America should give an object lesson to European Christians and Asiatic heathen as to what the American idea of Sunday is as a Christian institution is likely to work the wrong way for those who offer it.

It is probable now that these opponents have succeeded in their effort, and that the fair will be closed. The foreigners and heathen will have their object lesson in the American type of Sunday observance. They will see those great temples of enlightenment and of the brotherhood of human industries and of noble achievements closed on that day, and Chicago's liquor saloons and other places of vice open; and they will naturally inquire what kind of a sacred day it can be, and what the nature of the religion that sustains it, since the vices keep open shop and this wonderful exhibition for promoting human welfare and progress is shut.

Every such World's Fair preaches a gospel of humanity. It brings separated nations into mutual acquaintance and tends to knit the human fragments of the world together in a closer bond of international fellowship. It is a missionary agent of "peace on earth and good will among men."

Would that the gates of the Chicago fair might swing wide open on Sunday for preaching this new form of the old gospel to all peoples!

MR. POTTER TO BE RETAINED.

A meeting of the society was held after the close of the lecture, and it was unanimously decided to retain Mr. Potter here until May, at which time he has other engagements. Mr. Potter will therefore lecture here before the Unity society every Sunday evening.

COUNTY GOVERNMENT

The Act Passed by the Late Legislature.

HOW FRESNO COUNTY'S AFFECTED

Assemblyman H. J. T. Jacobsen Speaks of the Changes—Small Reduction in Salaries.

Assemblyman H. J. T. Jacobsen has returned from Sacramento and was interviewed concerning several matters of interest by a REPUBLICAN reporter. Concerning the legislature itself the assemblyman spoke as follows:

"Upon the whole, I consider the legislature that has just adjourned superior to its predecessor. It is open to the charge of extravagance, but it was a much cleaner body than the one before it. The increase in the number of the committees and the consequent employment of a horde of attaches was an instance of extravagance. Some of us opposed the appointment of so many committees, but the ruling party was too strong for us and had its way.

"Toward the end of the session Assemblyman Mordecai made an attempt to have the number of attaches reduced but the motion was again defeated. The legislature spent considerable money, but it had a number of deficiencies to pay and also made large appropriations for needed public works.

"As for the county government act, I regret to say our efforts have not been crowned with all the success desired and expected. I suggested reductions in the salaries of several of the officials, and proposed other changes. My colleague, Mr. Mordecai, agreed to some, and others he considered extreme. The result of our conference was a compromise, which seemed to us very fair. The bill, as it left the joint committee, provided for the following reductions in the salaries of the officers of this county:

"County clerk, from $3000 to $2500; sheriff, $6000 to $6000; recorder, $3000 to $2500; district attorney, $3600 to $3000. The salaries of the other officials were not changed.

"I had invited Senator Goucher to a conference with Mr. Mordecai and myself for the purpose of agreeing upon the acceded changes, but received no response. Finally I met him and mentioned the matter again. He answered that he had not made up his mind yet, and could not decide until he knew what the governor was going to do with the Madera county bill. If he signed it, Mr. Goucher expressed the opinion that reductions should be made all along the line, or something to that effect.

"The bill was sent to the assembly with the changes agreed upon by Mr. Mordecai and myself, and passed by that body. Beside the changes already mentioned there was a clause providing that the provisions of the act applying to this county should take effect from and after the date of its approval. The manner of paying the officers and deputies was also provided for. The clause mentioned would have resulted in reducing the term of the incumbents to two years.

"When the act went to the senate the salaries of the county clerk and the recorder were put back to their original figure, the compensation of the sheriff was increased by $1000 and the district attorney's salary was left where we put it, at $3000. Mr. Goucher also made an amendment that the provisions relating to counties of this class should take effect from and after the date of approval of the act, 'provided that nothing in this section shall affect in any manner the length of terms or the salaries fixed for present incumbents holding any of the said offices, nor shall this section affect in any manner the number of deputies nor the compensation thereof as allowed by law on the first of January, 1893.' The clause providing for the manner of paying the officers and deputies was also omitted in the senate.

"The act thus amended was sent back to the assembly. I endeavored to have the matter rectified and spoke at some length upon it, but it was too late. It was the last night of the session and there was a huge amount of business to transact, and the members were not disposed to remain over another day. The act was adopted, myself and others voting against it. County government matters and appropriations are always left for the closing hours of the session, which I believe wrong, as they are the very things that deserve careful consideration.

Mr. Jacobsen was instrumental in having the law passed providing for school bond elections in cities of the class of Fresno. He also made a vigorous and winning fight for the raisin association bill.

Among the important changes made in the country government act is the taking away from the district attorney the arbitrary power given him over the supervisors by the act of 1891. The $50 allowance to the superior judges for stationery, was also done away with, and justices of the peace are confined to their own townships. The former act provided that the county recorder should receive $12\frac{1}{2}$ cents for each name for making abstracts of mortgages, etc. The present act leaves the matter of compensation with the supervisors.

Some changes have also been made in the number of deputies, but they will not go into effect until the next term. The recorder is allowed the same deputies with the same salaries as under the 1891 act. The county clerk is given two deputies at $125 a month each, two at $100, one at $75 and a copyist at $60. The district attorney is allowed an assistant at $2000 a year, and two deputies at $1500 each. The total reduction in this office is $1300. The auditor, treasurer and school superintendent are each given one deputy.

Three Shanties Burned.

Three small frame dwellings on F street near Merced, belonging to Mrs. Mary Hart, were destroyed by fire at 1 o'clock yesterday morning. The buildings were in a blaze before the alarm reached the fire department, and nothing could be done except to prevent the fire from spreading to the adjoining property.

The loss is estimated at $900 and there was an insurance of $600. The origin of the fire is unknown.

Insane on Religion.

MARYSVILLE, March 20. — A man named Grove of San Jose, sued out a writ of habeas corpus today to recover a 3-year-old child held by its mother. The woman is the mother of a large family and has gone mildly insane on the subject of religion. She has agreed to return to San Jose.

A Rather Tough Crowd.

Assemblyman H. J. T. Jacobsen arrived from Sacramento last Sunday. He tells a funny story, related at Sacramento concerning the San Francisco delegation.

One of the country members jocosely remarked to a San Francisco member with whom he was on intimate terms: "The San Francisco delegation is the toughest looking lot of fellows I ever saw in my life."

To which the San Franciscan replied: "Is dat so? But you oughter see de — — dat we beat!"

Fined for Battery.

F. E. Brown pleaded guilty in Justice of the Peace Austin's court yesterday to a charge of battery preferred by J. M. Lester. Brown paid a fine of $15. The charge of battery against his wife was dismissed.

Cleveland's Baking Powder

Absolutely the Best.

One rounded teaspoonful of Cleveland's Baking Powder does more and better work than a heaping teaspoonful of any other. A large saving on a year's bakings.

The best known writers on domestic science, as Marion Harland, Mrs. McBride, Mrs. Parker and Emily Hayes, and teachers of cookery, as Mrs. Rorer, Mrs. Lincoln and Mrs. Dearborn, use and recommend Cleveland's Baking Powder.

"After a careful trial of others, I prefer Cleveland's Baking Powder."

Note the date: Feb'y 5, 1892.

RUMORS OF FLOODS.

Twenty Men Patrolling Fancher Creek.

The heavy rains of Sunday night and yesterday filled the water courses leading from the foothills, and early last evening there were rumors of floods and threatened floods in the eastern part of the valley.

Fancher creek began to rise yesterday afternoon, and in the evening it was reported to be rising at the rate of two and a half inches an hour. George C. Roeding of the Fancher creek nursery had a gang of twenty men at work all night strengthening the weak places in the banks of the creeks with sacks of dirt, and patrolling along the creek watching for any possible break.

At midnight the rain began falling heavily again and increased the danger.

People residing in the vicinity of Centerville and along the King's river bottom were up all night watching the river, which was booming bank full. All the streams in that vicinity were running like mill races, and several small floods were reported.

Big Dry creek had all the water it could hold, and in some places it slopped over.

It could not be learned whether much damage had been done east of Fresno, but nothing of a serious nature had been reported up to the time THE REPUBLICAN went to press.

At 1.30 this morning Mr. Roeding telephoned to THE REPUBLICAN that Fancher creek had risen five feet in three hours, and he did not believe that a flood would be averted.

A. WARNEKROS' TOE.

He Became Happy by Losing a Joint of It.

A. Warnekros, the gunsmith appeared in his place of business yesterday, wearing a very ornamental slipper on his left foot. A day or two ago his second toe was amputated by Dr. Rowell.

The toe had grown into a cramped position and caused him to limp when walking. Amputation at the first joint was necessary to enable Mr. Warnekros to walk at ease. He feels much happier now and will soon be able to go at a six mile an hour gait.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A GREAT PURCHASE.

A. J. Wiener Buys An Entire Stock.

It is seldom that the entire stock of a great department store is purchased by one man.

But news came yesterday that A. J. Wiener had purchased the entire stock of the great I.X.L. store which has gone out of business.

The people of Fresno may be sure that A. J. Wiener secured the stock at a great bargain and is enabled to offer the goods to the people at less than one-half their value.

This immense stock of clothing, gents' furnishings, trunks, valises, boots and shoes, etc., will be on sale at Wiener's from Thursday morning, March 23d.*
